July 10 2006

MEMORANDUM FOR: Mr. Swancy
FAA Headquarters
800 Independence Ave, SW
Room 1010
Washington, DC 20591

FROM: HQ ACC/A3AJ

SUBJECT: Intent of the DOD/DHS JPO March 21, 2006 Memorandum

Dear Mr. Swancy,

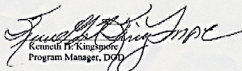

We want to reiterate our position as discussed during the conference call held 1 June 2006, regarding the intent and meaning of the interim policy on proposed windmill farm locations, set out in a memorandum issued by this office on March 21, 2006.

As discussed during the call, DOD/DHS JPO does not oppose windmill farms nor do we advocate any type of blanket "moratorium" on the siting of such facilities. Simply put, our policy is that any proposal for a windmill farm should be properly evaluated and reviewed to ensure there are no potential adverse impacts on military and other national security operations.

Accordingly, we will continue our standard practice and procedure of reviewing any such proposals on a project-by-project basis. Where our assessment of a particular project suggests potential adverse impacts to military or other national security operations, we shall raise those concerns with the appropriate regulatory authority in order to mitigate or prevent the adverse effects of that project.

If you have any questions regarding this matter, please direct your questions to Mr. Kenneth Kingsmore, 757-764-4392 or Mr. Russell Wright, 757-764-4508.

Sincerely,

Kenneth H. Kingsmore
Program Manager, DOD

Russell Wright
Program Manager, DHS
